SERIES 3 AIR SYSTEM

Pneumatic applicators for cartridges, sausages and bulk packed material - the new generation Series 3 air system provides fast, effortless application of low to high viscosity sealants.

SERIES 3 AIR SYSTEM

Change is in the Air!

Redesigned with comfort, weight and ergonomics in mind, the Series 3 air system will soon be standard on all pneumatic applicators.

63001 - Bexley

- 10.3 oz. Cartridges
- Air Action on Cartridge Plunger

63006 - Fenwick

- 300 ml. / 600ml. Sausage Packs
- Floating Plunger Action with Secure Cord

63007 - Ashford

- 10.3 oz. Cartridges / 300ml. or 600ml. Sausage Packs
- Spray and Bead Application
- Dual Flow Controls Regulate Incoming Air Flow and Pattern of Spray

63004LP - Whitley

- 10.3 oz Cartridges / 300ml. Sausage Packs
- Piston Rod Action on Cartridge Plunger or Sausage

63002 - Berkshire

- 29 oz. Cartridges
- Extension Model 63002-UP Available

Model 63009 - Oxford (Not Pictured)

- 24 oz. Bulk
- Coming Soon!

The dual component range is also in the process of upgrading to Series 3. Contact our sales team for available models!

ERGONOMICALLY DESIGNED

Its new lightweight, lightly textured handle and well balanced barrel make Series 3 a pleasure to hold and use. This is of particular importance for operators who use the applicator above shoulder height or repeatedly during the day.

QUIET BUT POWERFUL

Series 3 is ideal for environments where production lines and refinishing operations take place. To aid productivity and improve operator comfort when used indoors Series 3 is fitted with a built-in silencer which lowers the noise level of the applicator to less than 70dB.

PRECISE CONTROL

Located conveniently on the front of the handle, the all new easy-to-use regulator provides operators with fingertip control of the airflow through the barrel. As a result, Series 3 can effortlessly dispense a wide range of low to heavy viscosity sealants contained in either cartridge, sausage packs or in bulk.
