

Condo Lockers

When compared to drywall, wood and other wire products, the Econo-Fence provides more of everything you need—a clean, attractive design, simple assembly, adaptability and affordability, making it the perfect storage solution for your application.

Because it uses fewer components, no system installs faster than an Econo-Fence, making it the lowest cost wire mesh storage system on the market.

Galvanized components are corrosion-resistant for long-lasting, maintenance-free protection. Your system looks great even after years of use.

Condo Lockers

Econo-Fence single tier storage lockers are the durable, practical and multi-purpose solution for converting any space into a secure storage area. Unsurpassed in on-site adaptability, Econo-fence is the number one locker of choice among condo developers in North America. Available in a variety of configurations to best suit your needs

All panels and transoms are made of unframed 6GA & 8GA 2" x 2" electro-galvanized welded wire mesh. This innovative design allows for any necessary trimming around water pipes, wall irregularities and obstructions to be done right on-site, eliminating costly installation charges. Posts are equipped with adjustable foot plates for added strength on uneven

cut-outs around pipes
